

## ◦ Republic of KOREA

The Republic of Korea is a small country on the far eastern edge of Asia. Although it ranks 106th in the world in terms of land area, the country is a center of economic activity, culture, and arts. Today, Korea is an industrial nation standing tall on the world stage. Korea's semiconductor, automobile, shipbuilding, steel and IT industries are leaders in the world's global markets. Korea has also been host to the 1988 World Olympics in Seoul, the 2002 Korea-Japan FIFA World Cup, and been selected to host the 2018 Winter Olympics in Pyeongchang. Recently, Korean dramas, movies, and music are attracting many audiences in Asian countries and beyond, creating the "Korean Wave." Korea's new standing in the international community was highlighted in 2010 by becoming the first Asian country to chair the G20 and host the G20 Seoul Summit.

## ◦ SEOUL

Seoul is the world's 10th largest city and is also the center of all political, economic and cultural activities in Korea. Korea's past and present coexists harmoniously-with a heritage that spans across centuries and a future that lies with the cutting-edge technology of its IT industry. The city is surrounded by beautiful mountains and is built around the banks of the Han River with the nearest seaside located only an hour away from Seoul.

## ◦ Review of CAU International Program

### Afifa Ezi Ramadhiyanti/ University of Indonesia

The CAU IWP was a very satisfying program to follow through. I had the best time enjoying Seoul with my fellow exchange students. Not only I have experienced the Korean culture by myself, I also gained knowledge of what shaped the culture. The lectures were engaging and eye-opening. The choices of lecturer were also very satisfying. They all speak perfect English so that we understand all the materials given.

### Min Ho / National Taiwan Ocean University

I am so happy to get the chance to participate in this international winter program, which was held by Taiwan Ocean University and South Korea Chung-Ang University. In this period I can feel how much effort school put in this program. They gave us a variety of classes to know Korea, and let us know Korea in every aspect. Other impressive experience is wearing hanbok. In the past I have only seen these clothes in dramas. I am so glad to have the chance to wear hanbok. Wearing the traditional clothes can let me feel like myself in the hundreds year ago. I tried a lot of new things, got a lot of interesting experiences. I am soooo thank schools held this, and I will tell other students who never been to Korea before they can join this program next year.

### Yee Tian Boo / University of Wollongong

This winter program is awesome, everything is well organized and all the activities are fun. I have learned so much through the cultural activities, lectures and Korean class, now I'm more interested in Korean culture, Korean language and this lovely country. I have met some new friends, more knowledge about this country, all of this is more than I expected.

### Yi Jie Yang / National Cheng Kung University

This eighteen-day winter program was an wonderful journey in my life. In the beginning, I was confused about everything because it was my first time to go abroad. The weather was so cold and the food was so different and spicy that I couldn't adapt to them. However, the daily life in Seoul was convenient and high-quality. There are various kinds of restaurant, shops, and markets on the street. I enjoyed strolling around the neighborhood. CAU is a beautiful school, which consists of spectacular buildings and landscape. The food in the cafeteria is a little tasty, which makes me more familiar to Korean food. The dormitory is also high-quality, and it is comfortable to stay here. Thanks to the winter program, CAU provided us lots of wonderful experiences. In these eighteen days, we recognized the Korean culture by attending cultural activities. They were unprecedented experiences and I would not forget it forever. In my joy, I had learned how to do Taekwondo and ski, which was my awesome memories and new skills. These activities were incredibly interesting and exciting! Our tours to tourist attractions in Korea were also impressive, which gave me a deeper insight into Korea.
